#Stop **TPP**

We, women, civil society organisations, and social movements from around the world, declare our unequivocal opposition to the Trans-Pacific Partnership (TPP). We believe that the TPP will significantly infringe upon people's rights and freedoms. It is designed to entrench corporate dominance, inequalities, and exploitation.

We call for an absolute end to the Trans-Pacific Partnership Agreement and for the main text to be publicly released! We know this will expose the TPP for what it is: a framework that further institutionalises profit over people!
